**YOUR GUIDE TO  
RESPIRATORY FREEDOM**

Call **1-800-819-0646** for a free consultation

# TAKE A DEEP BREATH. THAT'S WHAT FREEDOM FEELS LIKE.

If you have respiratory issues and require oxygen therapy, get ready for a welcome breath of fresh air. For 20 years, Inogen has helped patients worldwide replace bulky oxygen tanks with lightweight, portable oxygen concentrator systems that deliver superior health benefits with the extra advantage of greater freedom.

From the convenience of our popular Inogen One to innovative new solutions for those who need more specialized care, our mission is to help you receive all the benefits of oxygen therapy without limiting the lifestyle you love. This guide will introduce you to the current Inogen range. To confirm the right option for you, call **1-800-819-0646** to speak with an oxygen specialist.

# A TECHNOLOGY PIONEER BORN OUT OF LOVE.

Our story began when Mae, the beloved grandmother of one of our founders, was diagnosed with COPD. Over time, she became reliant on bulky oxygen bottles 24 hours day, making her feel trapped at home. She knew there had to be a better way, and asked her granddaughter why there wasn't a system able to safely deliver oxygen in a portable size. That single question drove us to innovate the entire industry. It inspired us to create a single oxygen concentrator that could be used at home, away, and for travel, the Inogen One.

When Mae tested the Inogen One prototype in 2004, she replied, "This is better than anything I could have ever dreamed of." Since then, Inogen has gone on to become the global leader in portable oxygen therapy, improving the lives of nearly 1 million patients worldwide.

# “THIS IS THE BEST OXYGEN CONCENTRATOR YOU CAN BUY.”

—[verywellhealth.com](https://www.verywellhealth.com)

Every Inogen product is designed and assembled with pride in the U.S. Together with our medical and customer support teams nationwide, every member of our team is passionate about providing greater freedom and independence to the respiratory therapy patients who place their trust in us. From the first moment we were challenged to innovate, we were inspired to change the entire oxygen solutions industry. Over the past 20 years, Inogen has accomplished what others said couldn't be done and has become the one solution for portable oxygen concentrators around the world, sold in 59 countries and over 1 million concentrators sold.

Along with receiving a host of medical and technology awards, Inogen is an Accredited Homecare Provider. This allows us to extend our service philosophy by offering customers access to expert staff able to understand all facets of respiratory care, including issues relating to loss of mobility, breathlessness and fatigue.

Nationwide Accredited Home care provider

A+ rating

Designed and assembled in the USA.

Highest quality standards with a Management System certified to ISO 13485.

# EVERYTHING IT TAKES TO ENJOY GREATER FREEDOM. AND PEACE OF MIND.

Our goal is to ensure easy, affordable access to every patient who can benefit from an Inogen portable oxygen system. That begins by working with you to create a customized package based on your lifestyle and needs, and offering a 30-day risk-free trial\* to help you discover the benefits for yourself.

Ordering your Inogen system is easy, too. Here are two options to help you regain your freedom in no time:

## Purchase

Customers are welcome to directly purchase from us. Just call **1-800-819-0646** to speak with an oxygen specialist who will perform a confidential evaluation, and recommend the ideal Inogen solution for you. Benefits include:

- **No ongoing co-pays to worry about**
- **Receive a new Inogen system covered by a 3-year warranty, or optional lifetime warranty**

## Medicare/Insurance

You may be eligible to have your Inogen system covered by Medicare or insurance at little or no additional cost.\*\* Our team will directly work with your doctor, Medicare and insurance provider to identify the right Inogen solution for you, including the option to rent if appropriate. Call **1-800-819-0646** for more information.

\* Applicable for new purchases only. A restocking fee may apply.

\*\* Co-payments and deductibles may apply.

## Introducing the Inogen Connect App

Customers who select the Inogen One G4 or G5 can enjoy the extra advantage of our new mobile app. Easily connect your smartphone to your Inogen One to assist with set up, monitor system status, adjust settings and more.\* Ask us for details when you call.

Apple App Store

Google Play App Store

Inogen Connect App

\*Inogen Connect is optional and is not required to operate the product.

# INOGEN ONE.

Portable oxygen to help you enjoy life without limits.

Inogen One is an all-in-one portable oxygen concentrator designed for superior mobility and ease. It replaces lugging around heavy oxygen tanks — or the need for any tanks at all — because it converts the air around you into medical-grade oxygen. All in a system small enough to discretely carry in a shoulder bag.

While Inogen One is one of the most powerful pulse dose technology systems, it's also super light. Take it anywhere you go with total confidence and freedom. Charging is also a snap, with the ability to plug into a wall outlet, car DC outlet, or on the go with an external battery charger.

Three Inogen One systems are available, with up to six oxygen flow settings. Call us to find the model that's ideal for you.

# INOGEN *at* HOME

## WHISPER QUIET OXYGEN THERAPY TO HELP YOU REST EASY.

Patients who suffer from chronic respiratory distress often require a continuous flow of oxygen, especially while they sleep at night. Our Inogen At Home system combines powerful, secure 5-liter per minute oxygen delivery with technology that not only removes noise, but greatly reduces size and power consumption.

At just 18 pounds — half the weight of some other oxygen concentrators in use today — Inogen At Home is a compact unit you can easily and safely keep at your bedside. In fact, it's so light you can even use it during the day as a companion around the house. All with incredible energy efficiency to help you save more over time.

### Standard Home Oxygen Concentrator

- X** Heavy & bulky
- X** Very loud
- X** High power consumption

VS

### INOGEN *at* HOME

*Half the weight!*

- ✓** Only 18 pounds
- ✓** Extremely quiet
- ✓** Low power consumption

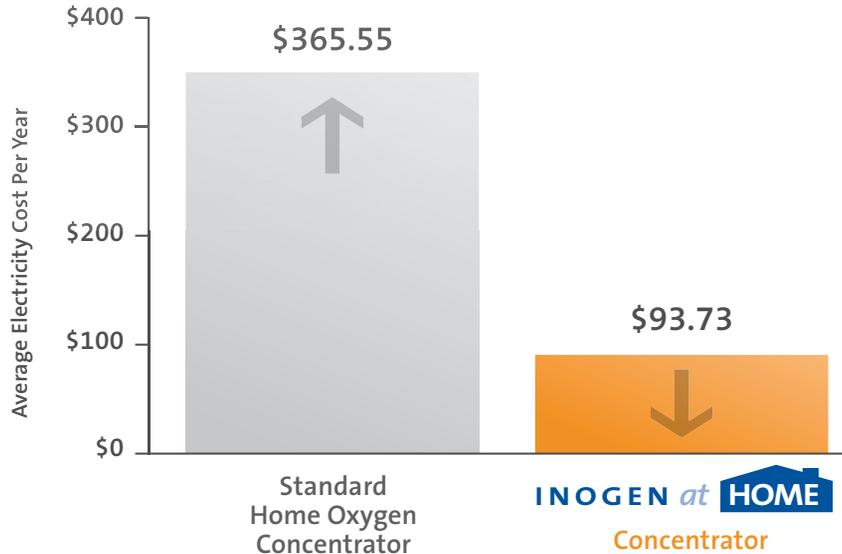

8  Call 1-800-819-0646 to reclaim your freedom.

*Compact, Quiet & Powerful!*

# SAVE \$300 OR MORE ON YOUR ELECTRIC BILL EACH YEAR.\*

Thanks to its proprietary energy technology, Inogen At Home consumes less electricity than most older, standard home oxygen concentrators. Because it's designed for 24/7 use, the reduced power consumption can significantly add up.

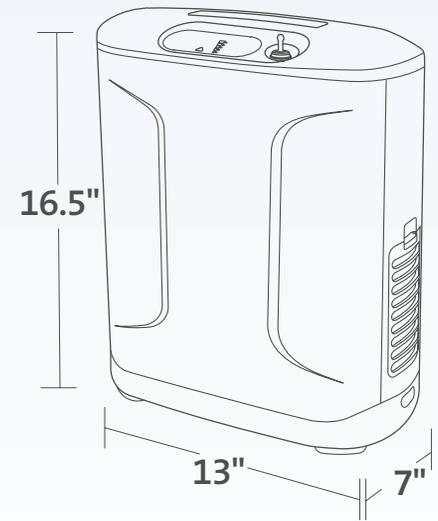

\* Calculations are based on published US average hourly kilowatt rates, and assume stationary oxygen concentrator usage of 20 hours per day. A flow setting of 2 liters per minute was used as the Inogen At Home power draw, with the published specifications of a common competitive stationary concentrator used as the standard market concentrator power draw.

\*\* See the Inogen At Home Limited Warranty Statement for full warranty information.

“It’s given me a great deal of freedom. With the Inogen, my quality of life has increased a thousand-fold.”

—Claudia H.

## OUR CUSTOMERS ALWAYS HAVE THE FINAL WORD.

- “ My Inogen system is so much lighter than canisters, and gives me hours of freedom to do what I want. I also love the charging options, and the Inogen Connect app. I only wish I found Inogen sooner. ”  
- Jerry L.
- “ As someone with COPD, having Inogen at my side makes me feel safe. Last Christmas, my family took me to Walt Disney World, and I had the best day of my life. Thank you for giving me the ability to live my life again. ”  
- Situ G.
- “ I’m beyond satisfied with my Inogen portable and plug-in concentrators. The portable one lets me keep doing the work I enjoy, and walks and light exercise, while the plug-in is so quiet and lightweight. It travels with me to visit family, and on trips with my husband. I’m so thankful. ”  
- Debra E.

# RECLAIMING YOUR FREEDOM HAS NEVER BEEN EASIER.

- 1 Call 1-800-819-0646 to speak to one of our oxygen therapy specialists.
- 2 Select your preferred Inogen system, and we'll work with your doctor to secure any necessary prescriptions.
- 3 Enjoy personal set up and use assistance after your Inogen system is delivered.

All major credit cards and checks accepted.

## Receive a free Medicare eligibility check.

It's easy to find out if your Inogen system is eligible for full or partial coverage under Medicare, or your current insurance.\* Simply ask us when you call, and we'll do the work for you, including contact with your doctor as appropriate. You also have the option to rent instead of purchase your system.

Call **1-800-819-0646** for details.

\*Co-payments and deductibles may apply.

# TAKE THE FIRST STEP TOWARD GREATER RESPIRATORY FREEDOM.

Every day, Inogen portable oxygen therapy is working to improve the physical and psychological health of nearly 1 million patients in need of respiratory assistance. It's a responsibility we take with exceptional care, which is why we're so pleased to share this guide with you. We understand that each patient begins their journey by exploring their options, and making a decision to trust us as a health partner. When you're ready, our team is here to provide immediate assistance, and ensure you find the right Inogen system for your health and lifestyle goals. On behalf of the entire Inogen family, thank you.

*“Freedom is the word I think about when someone asks why I chose Inogen. It gives me the freedom to travel ... the freedom to do the things I want to do ... to enjoy life. Inogen is simply the best portable oxygen partner there is.”*

—Thomas B.
